

103 Buckfield Ln
Weatherstone ~ Summerville
MLS# 1320220 ~ \$171,900
1,730 Sq Ft / 3 Bed / 2 Baths

*This is NOT a short sale or a foreclosure...
just an extremely well priced
and well maintained home.*

If you are looking for a bargain then come and take a look, if you are looking for 3 bedrooms and 2 full baths than look no further and if you like cathedral ceilings and want that cozy fireplace then make that appointment and if you want to be on a pond then slam on the brakes and make an offer!! And if that is not enough then how about the refrigerator, washer and dryer being included in the price (as is). You cannot go wrong at this price and living in Weatherstone means you are minutes from 1-26, minutes from shopping, minutes from dining and minutes from entertainment. And if you like outdoor activities then look at the pool, the play park and the side walks for you can walk, jog, run, swim and play all you want here!! And yet, with all of these perks there is real privacy for Weatherstone residents for they are tucked away from it all. This truly is a fire sale so don't be burned by waiting too long to see this pretty home. Home sold strictly "as is"
