Charleston, SC

.27 Acre ~ Daniel Island Park

NICE UNIQUE LOT in Popular Daniel Island Park!

\$267,000

Great lot in Daniel Island Park. This lot (like many others nearby) is ideally suited for elevated, well sized home, side entry garage, with nice rear, quiet buffer. Should support about 4000 square foot home, with a rear pool if lot features are utilized properly. Most other lots in this price point are smaller and look into neighboring homes from rear. Daniel Island ARB will work to assist buyer with layout options on this pretty, well located lot. Daniel Island Park is a wonderful place to own property and live. We have a copy of a recent survey, showing setbacks.

Directions: 526 to Daniel Island, left onto Island Park Drive, through first round-about, right at 2nd round-about, right onto River Green Place.
