BIG, BEAUTIFUL & MOVE IN READY!

As you walk in the 2 story foyer you are greeted with a beautiful dining room to the right with updated picture frame molding and a warm shade of blue paint. Follow the foyer through to the center of the home and you have the perfectly sized entertaining space: not too big and not too small! The entire downstairs is open between the kitchen, the eating area, and the bright, sunny, sunroom off the back. Your kitchen is spacious with tons of cabinetry. The upgraded 42" cabinets with crown molding and the glass tile backsplash really compliment the newly installed hardwood floors!
