This is a beautiful, quiet slice of Heaven in the country, yet within ten minutes of Mt. Pleasant. The home has had extensive renovations, including new bathrooms and new flooring. Sit by the fireplace on chilly evenings. There is a lovely landscaped yard and entrance way. The property is over five acres and has a two stall run-in barn and small pasture for horses. Horses are allowed. The rear entrance has a screen porch. There is a small separate storage building, a greenhouse and a small creek behind the property. There is access to The Francis Marion National Forest for trail riding, hiking and bird watching. The property has a wooded buffer surrounding it for and there is excellent space between neighbors. Have your Realtor make an appointment.
