This original owner townhome has only been occupied a few months out of the year since it was built! It features two large bedrooms upstairs, each with their own full bath and a half bath downstairs. The living room is spacious and has a dining area as well as the kitchen that has a small eat in area as well. The corner fireplace is used in the winter months and adds nice character to the room. The screened porch has custom made window shades for privacy and the back yard is partially fenced off from the 300k plus community of homes in the rear. The monthly regime fee includes: building insurance, flood insurance, lawn maintenance including grass cutting, pest control and the use of the pool as well as water! This location is RIGHT off of 526 so very convenient to Boeing, the Air Force Base, Blackbaud and many other employers. Minutes to Daniel Island shopping and dining without the Daniel Island price tag! Put this one on your list today.
