Stunning deep water executive custom home minutes from downtown historic Beaufort and 45 min. to the nearest airport! Gorgeous setting and memorable sunsets from the high bluff overlooking Battery Creek and the expansive marsh. As you enter the home, you see the WOW room, a very impressive two-story cherry wood library/media room with multiple interior balconies and a wet bar: the ideal room for entertaining a big crowd. The top notch quality steel construction and the many nice high-end upgrades are clearly evident: metal roof, copper gutters, heart-of-pine flooring throughout, custom plantation shutters, laundry chute, an elevator serving the three floors, a large basement, gas fireplaces in the den/gourmet kitchen and master bedroom, skylights, etc. The elegant spiral stair case is, simply striking! Very low maintenance yard with outdoor shower. There are two retractable canopies, one on the back patio and one on the side deck. Premium open flame gas lanterns enhance the front door and the large open side deck. Boat, fish, kayak at any time right from the back yard. Very short private dock on deep water. The community amenities include a deep water pier head, a covered oyster shelter, several common areas to enjoy in this friendly walking neighborhood.

\$1,100,000
