This home sits on just under one acre of land and is across the street from the water in a beautiful rural setting. The home features dual downstairs master bedrooms and is currently being used as a three bedroom home, however one room does not have a closet. Additionally there is a finished bedroom and bath upstairs that could serve as an additional bedroom, just add heat and air.

This home has the ability to easily serve as a large two bedroom, three, or four bedroom home. There is still additional attic space that could be finished.

The rear of the home features a screened porch and deck. A large air conditioned and insulated garage and small stable complete the backyard.
