6911 Lone Pine Ct ~ Hanahan ~ MLS# 1303211

Attractive amenities and grandeur await you in this custom built home by Carolina Concrete Studios.

The main floor is stunning! Walk through the elegant foyer taking note of the chandelier and decorative concrete floor. The family room is impressive but welcoming with an over sized fireplace, custom book shelves and plenty of windows to view the lake and wildlife from the second floor. The Chef in the house will enjoy cooking using the high end, top of the line appliances. Custom cabinets and granite counter tops compliment the kitchen with endless cooking and prep space. Master suite is over sized with an adjoining room that could be a sitting area or office leading to the outside deck. On the opposite side of the house you will find the second master suite. Downstairs you will find the third master suite and as a bonus, an approximately 1350 square foot apartment that could be income producing or used as a mother in law suite. This area is amazing! Granite counter tops, stainless steel appliances, laundry room, over sized bedroom, bathroom and walk in closet. All handicap accessible!! Elevator shaft is in place but elevator is not installed. Lets don't forget our pets. This home has a doggie bath area located just off the three car garage. Words can't describe this incredible home. Please view our virtual tour to see the true luxury and beauty this home has to offer!!!!
