Hello,

My name is Chris Brand and this was my name when I was born.

So therefore my company rightfully includes my name in it and is called Brand, LLC though we advertise **BRAND, REALTORS®** on signage etc. If you chose to Brand your own name the words " **In affiliation with Brand, LLC**" is all that is needed on your signs.

I founded the original 100% plan for just \$200.00 a month.

My original plan did not have a \$300 annual fee and E&O was included.

This is still true today at my new company!

I am accepting only 20 more agents on this plan I created.

I feel if I give away too much information it will devalue my information. But I need your support to get going and this is why I am allowing in 20 more people on this plan to get the ball rolling.

I will make sure leads from your listings go to you and I will give you advice that will help you close more transactions.

In real estate knowledge is everything.

Knowledge of course comes at a cost.

My recommendation is to be one of the next 20 agents who joins my company or to go to a more expensive company because the old adage you get for what you pay for is usually true. Of course the first people who invested in Apple Computer made lots of money and hopefully you can read between the lines.

Please come by our office or call/text me if would like to reserve one of the last 20 spots on my original 100% plan. **My cell is 843-345-2932**

If I am not there when you are signing up or you do not at least speak to me, you are joining someone else's company.

There is only one YETI and there is only one Brand, LLC.

Thanks for your consideration.
