Move-in ready open floor plan, centrally located with fresh interior paint, wood flooring, large kitchen island, granite counter tops and stainless steel appliances. There's a large family room with fireplace and a formal dining room, butler's pantry and a huge walk-in pantry. A bedroom and full bath are on the 1st level along with a "drop zone" at the garage door. The upstairs FlexRoom is a second full-sized living area with a bank of windows, built-in cabinets and two double-door closets.

The master bedroom suite includes a double king-sized walk-in closet that connects to the laundry room. A sitting area and large spacious master bathroom with tiled shower and garden tub add to the spa-like feel. A photovoltaic power system and spray foam insulation ensure high energy efficiency.
